Roses Then and Now Roses 101

Baron Manus MacDhai

Barony of Windmasters' Hill Kingdom of Atlantia

Sonnet 54 by William Shakespeare

O H how much more doth beautie beautious feeme,
By that fweet ornament which truth doth giue, The Rose lookes faire, but fairer we it deeme For that fweet odor, which doth in it liue: The Canker bloomes have full as deepe a die, As the perfumed tincture of the Roses, Hang on such thornes, and play as wantonly, When fommers breath their masked buds difclofess. But for their virtue only is their show; They live vnwoo'd, and vnrespected fade, Die to themselues . Sweet Roses doe not so, Of their fweet deathes, are fweetest odors made: And so of you, beautious and lovely youth, When that shall vade, by verse distils your truth.

O, how much more doth beauty beauteous seem By that sweet ornament which truth doth give! The rose looks fair, but fairer we it deem For that sweet odour which doth in it live. The canker-blooms have full as deep a dye As the perfumed tincture of the roses, Hang on such thorns and play as wantonly When summer's breath their masked buds discloses: But, for their virtue only is their show, They live unwoo'd and unrespected fade, Die to themselves. Sweet roses do not so; Of their sweet deaths are sweetest odours made: And so of you, beauteous and lovely youth, When that shall vade, my verse distills your truth.

Introduction

My Interest in Roses

- How I got started with roses
- Combining hobbies

Topics

What I will talk about ...

- History of Roses
- Roses of the Period
- How do roses of the Period differ from modern roses
- Q & A

History of Roses

- Origin of Roses
- Roses prior to our Period
- Roses in the Middle Ages
- Roses in Modern Times

Origin of Roses

- Members of the Rosaceae family
- Over 190 species of roses and tens of thousands of culitivars
- Only 10 contributed to the roses we cultivate today
- 3 of those have contributed the trait of remontancy (repeat blooming)

Origin of Roses

- Native to the Northern Hemisphere
- Mostly temperate but found from semi-tropical to sub-artic
- Fossil evidence
 - o 70 Million years ago in Asia
 - 35 Million years in North America

Roses before our Period

Prior to 600 CE

- Cultivated for at least the past 5000 years
- Known to be cultivated in Babylonia and Assyria
- Purpose for cultivation: production of rose water
- Egyptian tomb painting dating from 14th Century BCE
- Records of roses in gardens in China and Greece

Roses in Classical Times

Prior to 600 CE

- Roses in Homer's Illiad
- Theophrastrus described roses
- Pliny the Elder
- Dioscorides and De Materia
 Medica (1st Century CE & 6th
 Century Vienna Dioscurides)

Roses in the Middle Ages

The Medieval & Renaissance Period

"We know little about roses between the period of the Roman Empire and the early Renaissance."

- Bechtel, "Ancient Cultivated Roses",

American Rose Annual 25 (1950), Pg 17

7th to 16th Centuries

Roses in the Middle Ages

The Medieval & Renaissance Period

7th to 16th Centuries

- Monastic records
- Charlemagne and Capitulare de Villis (c. 800CE)
- Theobald IV and the Apothecary Rose
- Production of roses for rose water in Persia, Anatolia, Atlas Mts, Bulgari

Roses in the Middle Ages

The Medieval & Renaissance Period

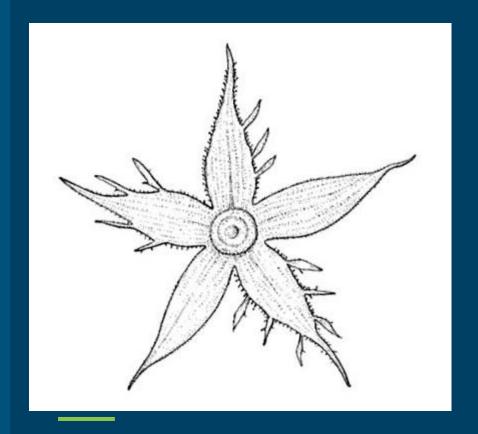

7th to 16th Centuries

On a summer's day, in sultry weather,
Five brethren were born together
Two had beards and two had none,
And the other had but half of one.

-- Albertus Magnus

Roses in the Middle Ages

Albertus Magnus's Riddle

Demonstration

Rose Sepals

Roses in the Renaissance

The Medieval & Renaissance Period

7th to 16th Centuries

- Humanism of the Renaissance
- The Beginning of Natural History as a Science

Roses in the Middle Ages

Pressed specimen of a rose:

Hieronymus Harder, Herbarium vivum

From 1576

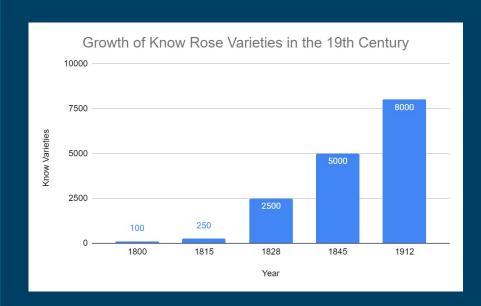

Harder, Hieronymus: Herbarium vivum - BSB Cod.icon. 3, [S.I.] Süddeutschland, 1576 - 1600 [BSB-Hss Cod.icon. 3] p. 81v

Demonstration

Herbarium-style Pressed Rose

- Age of Exploration and Colonization
- Increased trade with Asia and introduction of Asian roses
 - China Rose
 - Tea Rose
 - Other Asian species

- Hybrids developed in the 18th and 19th Centuries
 - Bourbon (chinensis x gallica)
 - Noisette (chinensis x Moschata)
 - Portland
 - Moss (sport of centifolia)
 - Hybrid Perpetuals: link between old and modern roses
- 1867: Guillot introduces "La France", the first Hybrid Tea
 - Considered the dividing line between Old Garden Roses and Modern Roses

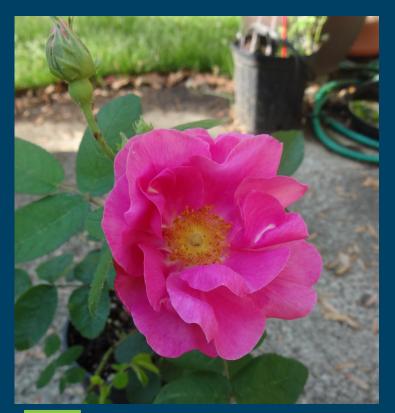

- 1867: Guillot introduces "La France", the first Hybrid Tea
 - Considered the dividing line between Old Garden Roses and Modern Roses
- Modern Varieties:
 - Hybrid Tea
 - Grandiflora
 - o Floribunda
 - Polyantha
 - Climbers
 - Ramblers
 - Shrubs

Classes of Medieval Roses

- Gallica
- Alba
- Damask
- Centifolia
- Foetida
- Species
 - Native Roses

Characteristics of Roses of the Period

- Bloom only once a year
- More single and semi-double bloom types
- Colors are simple
 - White, pink, or red, with a few yellow
- Bushy in growth habit
- Hardy in their preferred climate

Problems with Identification

Why is it so hard to figure out what varieties they grew?

- Few written records and not very detailed
- Different names for the same plant
- Same name for different roses in different places
- Sports and natural variation
- Similar names (Provence and Provins)
- Natural Hybridization
- A rose was a rose
